BLACK HANGAR REVIEWS

"Black Hangar Studios is a fantastic facility that caters for each and every production department's requirements and makes the life of a Production Manager so much more simple! It gave me production office space and facilities for all departments. The studio itself is a huge space that can accommodate large scale set constructions or many multiple smaller set builds. It's located close to a number of good accommodation options if required and all the large camera, grip and lighting companies on the west side of London. I wouldn't hesitate to recommend Black Hangar to anyone in production thinking of basing themselves there, and look forward to the next time I can return to work there too."

ALASTAIR EALES - Production Manager, '97 Minutes'

"Black Hangar rocks the studio game with a massive space for sets and huge green screen cyclorama. The staff is very experienced with digital production methods, from virtual sets to heavy VFX shoots, so it's pretty much anything a modern filmmaker can ask for."

TIMO VUORENSOLA - Director, 'Jeepers Creepers Reborn'
